

MOROCCAN SITUATION GROWS MORE SERIOUS

High Official at Rabat Telling Natives That They Should Enter Into Holy War.

MUCH SUFFERING AT CASA BLANCA

Moors Have Looted Stores Which Are Now Closed and Hunger and Distress Prevails in Consequence. Part of Mazagan Destroyed by Shells from French Warships.

(By Associated Press.)
PARIS, Aug. 8.—Special dispatches received here from Tangier represent the situation as being more alarming on the coast and in the interior.

Cald Sal, the administrator of customs at Rabat, is said to be openly preaching a holy war among the Musselman as the result of which the French consul has distributed arms to the Europeans. In addition to a fanatical priest named Macanin, at the head of a horde of followers, is traveling through the Littoral inflaming the anti-foreign sentiment.

Reports from Fez say that the advisers of the Sultan are terrified and have not yet informed him of the gravity of the situation. Up to 6 o'clock this evening the foreign office here had no confirmation of the reported bombardment of Mazagan.

A mine from which a heavy sustained fire was directed against the French consulate at Casa Blanca, was demolished by the guns of the French ships at the request of the Moroccan authorities. The European shops are pillaged but no Europeans were killed. The state bank agency at Casa Blanca has been robbed of about \$15,000 but no details of the robbery have been made public.

Mazagan Badly Damaged.
LONDON, Aug. 8.—A dispatch from Tangier says that the greater part of Mazagan was destroyed by the bombardment but the consulates were not injured. It is reported the Moors attacked the Jewish quarter and killed many persons.

Fighting at Casa Blanca.

TANGIER, Aug. 8.—The French warships yesterday landed two thousand additional men at Casa Blanca, where street fighting apparently continues, judging from the desultory firing heard day and night by those on board the ships anchored off the town. The Jewish quarter of Casa Blanca has been sacked. Many persons were massacred in the streets and the city is said to be full of dead Moors and the Moorish quarter is in ruins, having been set on fire by the shells from the guns of the cruisers. All the stores are closed and much hunger and distress prevails among the poor. The foreign consuls have ordered the store to be reopened and have established a special tariff for food supplies designed to mitigate the sufferings of the poor. The latest news received here from Casa Blanca says that calm and order have been established.

The firing inside of Casa Blanca lasted for two full days and only came to an end yesterday morning. The Kabyles have gone back out of range from the warships, but they are ready to swoop down on the town at the first opportunity.

Horrors Becoming Known.

The horrors of the looting of Casa Blanca by native tribesmen are becoming known today and their recital is inflaming the minds of the natives against all Europeans. The situation in various coast towns is worse. The natives are excited. A holy war is being preached at Rabat. Anti-foreign sentiment is growing. There is fear of a general outbreak. A number of European families are preparing to flee from Tangier. The Angera tribesmen in the immediate vicinity of Tangier are restless and may get out of hand. The Moorish authorities have practically no control of the situation. There are many complaints among the Europeans that France acted ill-advisedly at Casa Blanca in bombarding that town before protection could be arranged for the Jews and Europeans there and elsewhere on the coast and in the interior.

The news from Casa Blanca while conflicting as to the situation there today unites in showing that the bombardment was continued for longer than first supposed and that the lack of an adequate French force to afford protection resulted in an opportunity for looting, rapine and pillage with all the accompaniment of murder. The greatest anxiety prevails here regarding the situations in the various coast towns. The native troops are regarded as unreliable and if a general outbreak occurs the results are likely to be most serious.

Tribesmen Close to Tangier.

At a late hour tonight it was rumored that the Angera tribesmen were

close to Tangier and firing was audible. This has increased the general alarm. Today a Moor attempted to murder a Christian woman. He was prevented only by the intervention of other Moors. This is an isolated case but it shows the spirit of the natives toward foreigners.

Fearing the effect of the shells the tribesmen had avoided a direct attack on the troops but they made a savage onslaught in the Jewish quarter, killing the people and pillaging the shops.

HILLSBORO, ILL., CITIZENS CHASE NEGROES FROM TOWN

Small Sized Race Riot Results in Most of the Colored People Quitting the Place.

(By Associated Press.)
HILLSBORO, ILLS., August 8.—Ill feeling toward negroes which had been brewing since last Friday night when John T. Maddux, an aged white man was assaulted by a negro, culminated in a race riot last night and the majority of negroes were chased out of town. Negroes and white citizens fought in the streets for several hours. Finally most of the negroes fled and order was restored.

C. D. Fry, who has a contract for paying work and employed negroes, insisted that his employees be protected, but to no effect. Today Fry went to St. Louis declaring he would procure other negro laborers. It is feared that if he brings back a number of negro laborers bloodshed will result as anti-negro feeling is at high tension.

ALABAMA WINS FIGHT AGAINST SOUTHERN

Governor Comer and Railroad Officials Reach an Agreement and License Will be Restored

BOTH SIDES MAKE CONCESSIONS

In the Main, However, It is a Victory for the State—Will Have the Differences Settled in the Courts at the Earliest Possible Opportunity—Lower Rate September 1.

(By Associated Press.)
MONTGOMERY, ALA., August 8.—Governor Comer and the officials of the Southern Railway reached an agreement late this afternoon and the license of the railroad will be restored. Beginning September 1, the railroad and its allied lines will put into effect the two and one-half cents passenger rate and the measure reducing freight rates on all commodities. The agreement was not reached without concessions being made by both sides but in the main, it is a victory for the State. The laws in question will not be put into effect permanently. The agreement declares that the opinion is subject to judicial determination as to their constitutionality and reasonableness. Meanwhile, the other laws enacted by the legislature last winter affecting railroads will remain under the injunction granted by Judge Thomas G. Jones of the Federal Court. The railroads representatives agreed that they would ask Judge Jones to modify the restraining orders issued so as to permit of the immediate operation of the two acts in question.

The compromise affects only the Southern Railroad. The other systems of the state were not parties to the conference.

Beachy Makes a Flight.
Lincoln Beachy, the little aeronaut, in his own airship made an ascension over the Exposition grounds today.

Just as the sun was at meridian, Captain Beachy, astride the triangular frame work of his trim little airship, gave the signal to let go, and as all hands were released, the little 10 horsepower motor started the propeller going, and like a great bird, quivering with excitement, it arose straight in the air, and like the homing pigeon, it circled the great concourse a couple of times and then, in an easy manner sailed down easterly until it came to the white dome of the Auditorium. After circling around the dome, it shot up in the air to a height of 500 feet, after which, it turned and started for the concourse flying over the War Path and coming down as low as 100 feet, allowing Mr. Beachy to shout to the many startled and astonished spectators. Mr. Beachy will make flights tomorrow and Saturday at 11 a. m. and 4 p. m.

STRIKE OF OPERATORS IS AGAIN THREATENED

Over Two Hundred Key Welders in Chicago Left Their Places at Midnight.

SYMPATHIZE WITH LOS ANGELES

Claimed All Prominent Union Men in That City Are Being Discharged as Fast as Excuses Can be Found—Men on the News Wires in Chicago Give Up Their Positions.

(By Associated Press.)

LOS ANGELES, CAL., August 8.—As the result of the telegraph operators' strike, 18 operators are at work today in the Western Union office in place of thirty or thirty-five. Additional operators are being brought in as rapidly as possible.

The company closed all its city branch office today and took such operators as would go to the main office to work. The outside operators were all women. Several joined the strikers. The strike was not ordered by the Union officials and is said not to be sanctioned by them. W. L. Burke, one of the strikers said: "It is simply a matter of protecting ourselves against being 'wooded' out by the Western Union management. Superintendent Lamb of this division has a list of our men who have been active in the union work and have supported at least morally the strikes against the company in other cities. These men are being discharged from the company's employment as fast as any subterfuge can be found for it. We asked for a conference with Mr. Lamb and are awaiting his reply."

Chicago Operators Go-Out.

CHICAGO, ILLS., August 8.—The grievance committee of the telegraphers' union notified the night manager of the Western Union that unless the men who quit work in the Overland division were reinstated and not requested to work with Los Angeles, all men employed in the Chicago office would be called out on strike at midnight. The operators had refused, one by one, to work the Los Angeles wire and 49 were discharged. The grievance committee of the Union was appealed to and all operators on the division were ordered to quit. All but six of the operators responded to the strike call. These men were chiefs and wire men. At a meeting earlier in the night of the executive board of the Chicago local, a resolution was adopted declaring that it was the sense of that body and the Western Union grievance committee that no member of the Union should work with an office where men are on strike.

News Men Quit Their Jobs.

The men employed by the company at various morning newspapers had been notified of the contemplated strike and they also quit work. The officials of the union tonight stated that the day force employed by the company, most of whom belong to the union, would refuse to go to work in the morning. This also will include all branch offices in the city.
